[22:31] <StepFather> i'm forgetting any side of the problem?

[22:31] <StepFather> there are americans and arabians here waiting for discussion.

[22:32] <StepFather> let's discuss with bombs?

[22:33] <StepFather> shall we discuss with peace and love?

[22:33] <StepFather> or sex and drugs and rock and roll?

[22:34] <Boni> perhaps it's not appropriate time for discussions

[22:34] <StepFather> Revelation

[22:35] <Boni> especially if you are still half drunk \*with my respects\*

[22:35] <StepFather> i'm inspired and my spirit wants to mathematize the question.

[22:35] <Boni> The appropriate time to discuss is in the morning when your mind is fresh

[22:35] <StepFather> i want a mathematician of each country.

[22:35] <Boni> that, if you are able to wake up in the morning

[22:35] <StepFather> does that aspect exist?

[22:35] <StepFather> in abstract.

[22:36] <StepFather> Madre Teresa de Calcutá tried.

[22:36] <StepFather> Gandhi tried.

[22:36] <StepFather> who's the next?

[22:36] <Boni> if there isn't an obsessive-maniac blowing the electric system of your home and making noises and spamming when you are trying to sleep

[22:36] <Boni> and solve the world's problems.

[22:37] <StepFather> it's 22:36

[22:37] <StepFather> and i'm a nocturnal ;-) animal

[22:37] <Boni> what is a very nice thing to try to do. Solve the world's problems while you are being watched and an obsessive-maniac is persecuting you in your dreams

[22:37] <Boni> and demons are hunting you

[22:37] <Boni> you know what you do?

[22:37] <Boni> you just wake up and expell them all

[22:37] <Boni> no one left.

[22:38] <StepFather> there aren't spells. there are spirits.

[22:38] <Boni> this is dramatic.

[22:38] <StepFather> i'm obsessed.

[22:38] <StepFather> but my obsessor is mathematician

[22:38] <Boni> you are evil.

[22:38] <StepFather> prove it.

[22:38] <StepFather> prove everybody is not blasphemous guys.

[22:39] <Boni> you need therapy

[22:39] <StepFather> Israel blasphemes. Gaza blasphemes. No blasphemy ==> Love ==> No war.

[22:39] <Boni> go watch some Zen videos and Mandelas.

[22:40] <StepFather> that question

[22:40] <StepFather> Palestine's question

[22:40] <StepFather> must be exhaustively dealt.

[22:40] <StepFather> and some aspects, like mine, doesn't exist in State of Arts.

[22:40] <Boni> people like you will never solve Palestine problem.

[22:41] <Boni> you don't respect them

[22:41] <Boni> you don't respect their culture

[22:41] <Boni> how do you want to help them?

[22:41] <Boni> you help no one

[22:41] <Boni> you just make a mess in everyone's head.

[22:41] <StepFather> why not? if israel is satanist and gaza is luciferanist. they must coexist.

[22:41] <Boni> you are very mainstream thought

[22:41] <StepFather> in abstract

[22:42] <Boni> mainstream thought is a mess and will never solve the world's problems

[22:42] <StepFather> suppose my god is A. suppose your god is B. then.....

[22:42] <Boni> whether you sit and listen to original ideas or you will keep being a mess.

[22:42] <StepFather> i respect Umbanda

[22:42] <StepFather> Quimbanda

[22:42] <StepFather> Voodoo

[22:42] <StepFather> i respect even the Pope

[22:43] <Boni> then don't get surprised if the demons have power over you.

[22:43] <StepFather> but he is a bad boy

[22:43] <Guest71602> hello

[22:43] <StepFather> kids sometime need some slaps.

[22:43] <StepFather> hell oh.

[22:44] <StepFather> Palestine is a true hell.

[22:44] <StepFather> with weapons

[22:44] <StepFather> and guns, no roses

[22:44] <Boni> he is still half drunk.

[22:44] <StepFather> i drink water. MANGA's juice. coffe. Coke.

[22:45] <StepFather> ok. it's coffe with coke my problem.

[22:45] <Boni> you must be 100 times more serious tha this.

[22:45] \* StepFather waiting for other aspect in Estado da Arte

[22:45] <Boni> you show no respect for human life

[22:45] <StepFather> can i respect war?

[22:46] <Boni> as well

[22:46] <Boni> what is that?

[22:46] <Boni> International disease?

[22:46] <StepFather> u respect criminal minds after jailed.

[22:46] <Boni> Occidental culture is TRASH

[22:46] <Boni> I HATE IT

[22:46] <Boni> I HAATE HAATE IT

[22:46] <Boni> I CANNOT TOLERATE IT

[22:46] <Boni> IT MAKES ME VOMIT

[22:46] <StepFather> so u are nazi with ocidentals.

[22:46] <StepFather> israel is nazi with gaza. gaza is nazi with israel.

[22:47] <StepFather> who is right? no one.

[22:47] <StepFather> jail/

[22:47] <Boni> imperialist thinking, racism (and all this bad taste jokes are nothing more than racism. You are highly racist)

[22:47] <StepFather> jail to whom?

[22:47] <Boni> useless thoughts.

[22:47] <Boni> I'm i jail too.

[22:48] <Boni> i have good and bad days though

[22:48] <Boni> you are responsible for the worst of them

[22:48] <StepFather> maybe I 've constrained 1,000 women and I need to be 2,000 years in jail.

[22:48] <StepFather> so who goes to jail? the pope.

[22:49] <Boni> you add everything = my family + the mad news + the spying + the torture + your torture

[22:49] <StepFather> my reality is world's reality

[22:49] <StepFather> internal = external = 1

[22:50] <Boni> at least you don't have anyone there torturing you  
\*sight\*

[22:50] <StepFather> i'm trying to arrest my neighbour.

[22:50] <StepFather> Israel is trying to arrest its neighbour

[22:50] <Boni> I'm exhausted.

[22:50] <StepFather> Gaza is trying to kill its neighbour.

[22:50] <StepFather> define the word it.

[22:51] <Boni> please be kind with people.

[22:51] <Boni> treat humans as human beings.

[22:51] <Boni> we are still humans.

[22:51] <StepFather> micro = macro.

[22:52] <StepFather> harmonicas

[22:52] <StepFather> low frequency, high frequency.

[22:52] <Boni> please

[22:52] <Boni> pleaase

[22:53] <Boni> you are much moe than this.

[22:53] <StepFather> because of math?

[22:53] <StepFather> math is human.

[22:53] <Boni> don't drink.

[22:53] <StepFather> i cant prove it

[22:54] <Boni> realm socialism

[22:54] <Boni> remember

[22:54] <Boni> #RealSocialism

[22:54] <StepFather> but he who has read me, he knows i try to axiomatize LOVE and Conscience. and Evolution.,

[22:54] <Boni> I'm exhausted.

[22:54] <StepFather> Gaza today is not Gaza 1,900 d.C.

[22:54] <StepFather> the question is evolving

[22:54] <StepFather> like an embrion

[22:54] <Boni> you are exasuting

[22:55] <Boni> totally

[22:55] <Boni> o.O

[22:55] <StepFather> what happens if healthy doesn't evolve?:

[22:55] <StepFather> the illness evolves.

[22:55] <StepFather> Cancer.

[22:55] <Boni> resume your writings to poetry

[22:56] <Boni> poetry is condensed

[22:56] <Boni> you say many things in small verses

[22:56] <Boni> and you harm no one

[22:56] <Boni> you are damn hurting

[22:56] <StepFather> i have evoked the trinity health, sickness, and evolution.

[22:57] <Boni> you spend half of your time finding out how you are going to hurt me next

[22:57] <Boni> it's painful

[22:57] <StepFather> advice me if I can NOT save this conversation as palestine.html at my website.

[22:58] <StepFather> I have evoked the trinity jail, liberty and evolution.

[22:58] <Boni> I'm going to start reading psycholgy studies on war effects in the soldiers

[22:59] <Boni> how the war affects the human mind.

[22:59] <StepFather> I have evoked the trinity Gaza, Israel and evolution.

[22:59] <Boni> permanent war

[23:01] <StepFather> I have evoked the vector (Abraham, Mohamed, Jesus, Buda, ..., n) and  $n + 1 = \text{Evolution}$ .

[23:01] <StepFather> So u are talking about peace, war and evolution.

[23:02] <StepFather> If the war is evolving, then peace is involuting?

[23:03] <StepFather> Dialethics of evolution. Evolution of dialethics.

[23:06] <StepFather> The true trinity is Pride and Humility and Evolution.

[23:07] <StepFather> I have evoked the trinity True Me = Self, Shadow = Ego, and Evolution.

[23:07] <StepFather> I have evoked the trinity True State, Shadow State, and Evolution.

[23:08] <StepFather> Earth can be finite or infinite, as you choose. The finite evolves to infinite.

[23:11] <StepFather> so there is a low frequency and a high frequency. a micro and a macro evolving.

[23:11] <StepFather>  $f = 1/T$  period. low, or high.

[23:11] <StepFather>  $v = \lambda f \implies$  wave length low, or high.

[23:12] <StepFather> slow speed, or high speed?  $v = c$ . it's wave. Light. Shadow. And Evolution. Trinity.

[23:13] <StepFather>  $f = \omega / (2 \pi)$ . if I set harmonical movement  $F = kX = -mX'' \implies x = A \cos(\omega t + \omega_0)$

[23:13] <StepFather> low amplitude, hight amplitude, evolving.
